

# Additive Manufacturing & 3D Printing Technology Exhibition

24 - 30 January 2019  
Bangalore International Exhibition Centre  
Bangalore, India

Concurrent with

## ► Taking Manufacturing to the Next Level

Mass Customization is the future.

Conventional manufacturing techniques are capable of producing a great range of shapes and designs but additive manufacturing takes production to the next level.

Indian manufacturing industry now needs to move towards the next level and embrace technologies such as 3D Printing / Additive Manufacturing to move up the ladder and compete globally.

## ► India: Opening New Horizons

Break restrictive design paradigm and feel free to design from AM

As per advanced manufacturing survey 85%\* of the Indian industries are aware of advanced manufacturing technologies such as IIOT, Additive Manufacturing, Advanced Robotics and Augmented Reality and nearly 80% of the companies are ready to adopt advanced manufacturing by 2020. The adoption will be majorly from large and medium industries.

(\*Source: FICCI & TATA Strategic Management Group)

## ► Objectives

- To familiarize Indian Manufacturing Industry with the techno-commercial advantages of AM,
- To bring entire value chain of AM from raw materials to part finishing under one roof so as to provide an integrated view of AM,
- To open up business opportunities for all exhibitors from AM value chain and offer networking possibilities for technical collaboration/partnerships for market access,
- To pitchfork AM as an opportunity arena rather than a disruptive influence,
- To reinforce image of IMTEX series of exhibitions as 'Future Technology' platforms.

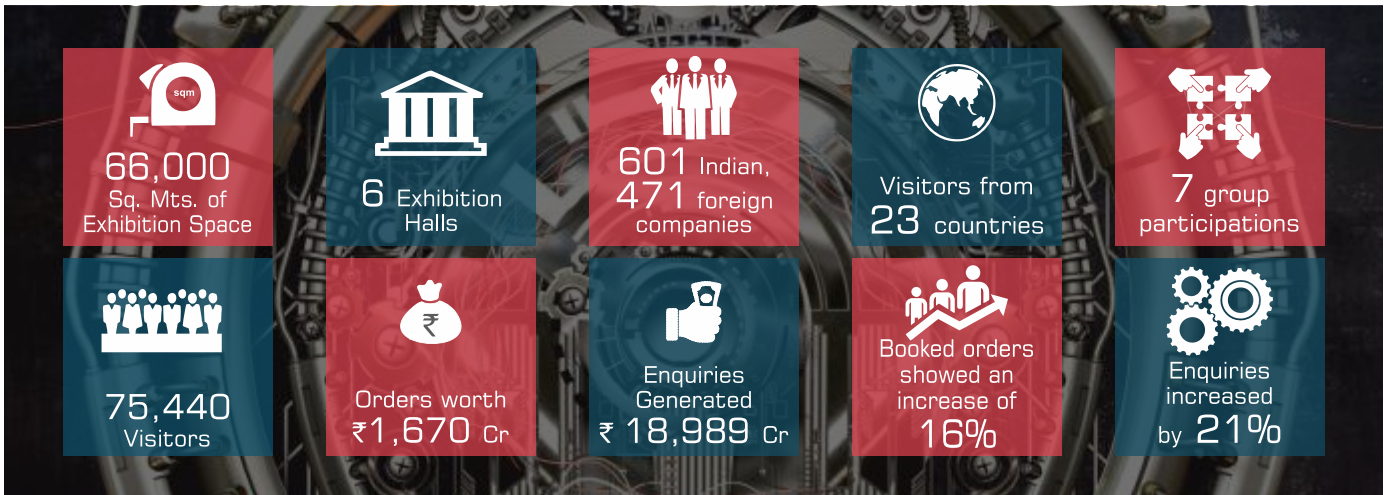

## ► About IMTEX

IMTEX is the most recognised, largest manufacturing technology show in South and South East Asia. IMTEX will be celebrating its 50th year in 2019.

The strength of IMTEX lies with its global recognition, brand, ability to attract large number of business visitors, generating business worth millions of dollars and a great place to connect, learn and share knowledge for the manufacturing community.

IMTEX 2019 will showcase the complete range of metal-cutting machine tools. Concurrent show Tooltech 2019 - exhibition of cutting tools, tooling systems, machine tool accessories, metrology & CAD/CAM. A special pavilion on Additive Manufacturing will also be a part of IMTEX 2019.

## ▶ IMTEX 2017 Key Highlights

### Exhibitor Profile

- Additive Manufacturing / 3D Printing Machines
- Fused Deposition Modeling
- Selective Laser Sintering
- Technologies and Services
- CAD/CAE Software in Additive Manufacturing / 3D Printing
- Scanning, Digitization, Metrology and Inspection Equipment

- Metal Moulding and Tooling
- Hybrid Process
- Input Materials - Powders, Granules, Filaments, Resins (Metals & Plastic)

The above list is not exhaustive. All companies offering any products / solutions / services in Additive Manufacturing and related technologies are welcome.

*Limited space, Space offered on First-Come-First-Serve Basis*

### Expo Zones

The Pavilion will have zones focusing on various aspects:

- Innovation in Product Development, Engineering & Manufacturing
- Products Developed through Additive Manufacturing (Component Gallery)
- Keynote Presentations
- Start up zones
- Case study Presentations to Young Engineers / Students

### Special Focus in AM Pavilion

- Academia and Technical Institutions
- R&D Institutes
- Application Engineering & Services
- Publication - Body / Periodicals / Digital Media
- Policymakers
- Certified Research Institutes in AM
- Workshops

## ▶ Visitor Profile

### Manufacturers of:

- Aerospace
- Automobile OEM's
- Defense
- Energy
- Medical Engineering
- Food Processing and Dairy Equipment
- Oil & Gas Equipment
- Prototyping Centre
- Research and Development Organisations
- Telecom Equipment
- Auto Components
- Earthmoving Equipment
- Die & Moulds
- Electrical and Electronics
- Plastics Processing
- Railways
- Space and Nuclear
- Tractors and Farm Equipment
- Windmill, Power and Thermal
- White and Brown Goods

## ▶ How to Register

For booking your stall in Additive Manufacturing Pavilion please visit [www.imtex.in](http://www.imtex.in) and download the application form and send the filled application with the participation fee to Mr. Mahesh M K, Email: [maresh@imtma.in](mailto:maresh@imtma.in). Tel: +91 80 6624 6758

### About IMTMA

IMTMA was formed in 1946 the year before India got its independence when 20 machine tool manufacturers joined hands to form an Association. Over a period of nearly seven decades it has grown in size to have around 500 members representing around 90% of the organized machine tool and allied equipment manufacturers as on date. Today, IMTMA is the apex body and single point of contact for the entire machine tool industry of India and plays a critical role in the development of the metalworking industry. A not-for-profit association, IMTMA's initiatives range from government advocacy to industry and export promotion, trade fairs and events, training and seminars, technology missions, publication of various industry and technical writings, structuring of regional councils, and development of clusters.
