

June 16 - 21, 2022, Bangalore International Exhibition Centre (BIEC), Bengaluru

From the IMTEX Desk

All Set for a New Era in Manufacturing

IMTEX FORMING, Asia's largest exhibition on metal forming, organized by the Indian Machine Tool Manufacturers' Association (IMTMA) will be live from June 16 - 21, 2022, at Bangalore International Exhibition Centre (BIEC), Bengaluru. It's the 7th edition of the metal forming and manufacturing technology show and IMTMA will welcome more than 350 exhibiting companies that will occupy 33,000 square metres of exhibit space at BIEC.

Visitors will get a peek into the metal fabricating and forming equipment – including water jet and laser cutting machines, press brakes, welding equipment and the like. Many will be housed in a new Digital Manufacturing pavilion at this year's edition of IMTEX FORMING. Tap into the 3D printing, evolutionary Industry 4.0 concepts, and things that go beyond Industry 4.0 which will help the manufacturing industry to stay ahead and stay relevant.

Bonus: Two Concurrent Shows and Two Special Highlights

IMTEX FORMING which is held every even numbered year in Bengaluru attracts on an average a good footfall of 30,000+ visitors from various countries. The show attendees will peruse a plethora of exhibitor-lined aisles to witness live technologies on display in machine tools, controls, software, components and sub-systems.

Complementing the metal forming solutions on display at IMTEX FORMING 2022 are the two concurrent shows – Tooltech and Digital Manufacturing and two special highlights – AatmaNirbhar Bharat Pavilion and i2 Academia Pavilion.

Many new technologies will be unveiled at IMTEX FORMING 2022 and for every machine innovation one can expect to find a corresponding tooling and workholding technology.
